

“Working with Henry (Program Manager) was easy... he gave me the information and helped me understand what the technical terms meant... it was effortless on our end.”

– Ms. Malone, ‘Energy Champion’

A Shared Energy Manager

An experienced, Certified Energy Manager shared among several businesses to focus on energy and water conservation opportunities. Embedded with 15 businesses in the 2015 Program Year, Program staff regularly meets with the business management and frontline staff to understand their strategic priorities and improve their business performance.

Your Energy Manager Program Provides

- Preliminary Energy Use Assessment (PEUA)
- Benchmarking Energy
- Data analytics
- Identify operational changes
- Product Purchasing best practices
- Train internal ‘Energy Champions’
- Loading order of projects based on financial metrics, including incentives
- Green Business Program certification

Qualifications

- Must be located in Alameda or Contra Costa County in California
- Targeted properties are typically in the 15,000-100,000 Sq/Ft range
- Have property manager/ownership support
- Have executive level interest in becoming a more sustainable business, or Certified Green Business
