SUBJECT: Notice of Determination in Compliance with Section 21108 or 21152 of the Public Resources Code

State Clearinghouse No. (if submitted to State Clearinghouse): 2018072036

Project Title: Mission Clay Products Soil Remediation Project (City of Fremont File No.: PLN2018-00272)

Project Applicant: BBG KRG, Inc., P.O. Box 1839, Corona, CA 92878 (Attn.: John Zentner, email: johnz@zentner.com, phone: (510) 622-8110)

Project Location (include county): Mission Clay Products, 2225 Old Canyon Road, Fremont, Alameda County, CA 94536

(APNs: 507-762-1, 507-762-2-2, 507-762-4 and 507-762-6); Republic Services Newby Island Landfill, 1601 Dixon Landing Road, Milpitas (San Jose), Alameda County, CA 95035; and haul route between above locations.

Project Description: The proposed project includes a Preliminary Grading Plan to facilitate the excavation of 152,000 cubic yards of soil and relocation of up to 20,693 cubic yards of contaminated soil from the Mission Clay property at 2225 Old Canyon Road in the City of Fremont to the Newby Island Landfill in the City of San Jose, a landfill that can accept the soil. The project also includes dewatering of excavated areas and treatment of the impacted groundwater at an on-site treatment plant, which would be used on-site and not allowed to run off to Alameda Creek. The project would require up to 18 temporary employees for the excavation and hauling of the contaminated soil. Soil excavation would occur over a period of approximately 60 days. The timing for the haul has been designed to minimize or eliminate disruptions to local school operations. Approximately 30 days would be needed to haul the contaminated soil to Newby Island, which is estimated to be completed prior to the first day of the 2018–2019 academic year on August 29, 2018, but would be completed no later than the first week of September 2018. The Preliminary Grading Plan has been reviewed in coordination with the San Francisco Regional Water Quality Control Board and the Alameda County Water District, both of which are responsible agencies for the approval of the soil remediation work. Removal of the soil is necessary to prevent potential contamination of groundwater.

This is to advise that the City of Fremont City Engineer approved the above-described Preliminary Grading Plan on August 2, 2018, and made the determinations enumerated below regarding the project.

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Program [was was not] adopted for this project.
5. A Statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

08880004

This is to certify that the Mitigated Negative Declaration is available to the general public at the above address or at <http://www.fremont.gov/430/Environmental-Review>.
