

# MICROGRID CELEBRATION EVENT

The City of Fremont is pleased to invite you to the official dedication of its Solar Renewable Microgrid System demonstration project.

**April 2, 2019**  
9 a.m. to 11 a.m.

**Fire Station #6**  
4355 Central Avenue  
Fremont, CA 94536

In partnership with **Gridscape Solutions**, the **Fremont Chamber of Commerce**, and **funding from the California Energy Commission**, the City has successfully deployed microgrid systems at three of its fire stations to demonstrate islanding of critical infrastructure. The objective of this project is to reduce overall energy cost by up to 80%, reduce greenhouse gas emissions, and provide grid resiliency.

---

**Gridscape Solutions** is a Fremont-based company and leading renewable energy systems provider with a focus on deploying state of the art Microgrid and EV charging solutions aimed at reducing greenhouse gas emissions in California.
