I'm a classroom teacher, grew up in Fremont and experienced poverty (including homelessness) growing up. The reason I'm a teacher today instead of ~~a~~ on the street or worse is in part because of services from the community. This navigation center is one part of helping people get well and be a positive part of the community.

Comment

Not only do we have a resource gap in our city but it appears we have a compassion gap. The fears that are being told about our unhoused people in Fremont are disheartening. We are here to solve a problem with a viable solution but instead we are focusing on other people's needs that seem baseless. I hope the City will act in the best interests and do the right things.

I wholeheartedly support the HNC -
NO matter where it is located.
We - as a community MUST TRY

The Best we can do is support the

I live in the Niles area
& have people who are
homeless 'living' in the bushes
along the tracks. This is not a
safe place to live. Everyone
needs a roof over their head &
a safe space. The HNC would
be a first step toward getting
~~for~~ folks living outside hooked up
with services.

COMMENT CARD

Homeless/Navigation Center

Comment

I support HNC's Housing First Model?

- Being housed is essential to finding work.

- Having a family in a dysfunctional family to stay housed creates barriers to self-improvement

- therefore, YES to HNC.

COMMENT CARD

Homeless/Navigation Center

Comment

The plans seems good but need to
make sure it is working well.

COMMENT CARD

Homeless/Navigation Center

Comment

Fremont ~~needs~~ will benefit from an HNC at a location that addresses the core issues

① Healthcare - Physical and Mental

② Access to jobs.

③ Proximity to a vibrant downtown community

COMMENT CARD

Homeless/Navigation Center

Comment

You cannot wish these real people away. They are not unlike us. Not having a HNC does not imply these people just vanish. It is better to support them and help them regain their lives and a home than them being on the same street.

COMMENT CARD

Homeless/Navigation Center

Comment

This is a must! We must be
compassionate to our neighbors.
By helping a small number of
homeless citizens to find stable
housing every six months or so,
we can begin to make some
progress in reducing the number
of homeless on our streets.

COMMENT CARD

Homeless/Navigation Center

Comment

I definitely like the idea and help
homeless people and if they are from fremont
then it is our responsibility

COMMENT CARD

Homeless/Navigation Center

Comment

Whenever the HNC is placed, Fremont needs one. We need one to help people get off the streets and back into jobs and housing. Other areas with HNC's show that they are indeed effective. Please just put it somewhere.

COMMENT CARD

Homeless/Navigation Center

Comment

Where do you propose housing homeless to help get them back in society if NOT in a navigation center?

COMMENT CARD

Homeless/Navigation Center

Comment

I support the HNC because

- The HNC is one ~~one~~ of several actions the COE is taking to address the housing crisis.
- The model for adults is more inclusive than those ~~that~~ that require ~~participants~~ participants to abandon their ^{partners and} pets, and/or participate in ~~detoxification~~ ^{detoxification} or other service programs ~~before~~ before they can be rehoused.

COMMENT CARD

Homeless/Navigation Center

I highly support the housing navigation center. It is vital for the center to be close to public transit and easily accessible. The majority of individuals in Alameda County are homeless due to economic instability. 57% of homeless individuals had lived in the County for 10 or more years. These are long-term residents who deserve help finding a home.

COMMENT CARD

Homeless/Navigation Center

Comment

The Sierra Club believes housing is a human right and that all neighborhoods should be open to people of all income levels and backgrounds. Everyone deserves to live in a healthy and sustainable environment. The Sierra Club supports a homeless navigation center in Fremont and encourages members and supporters to do the same. Fremont should select a navigation center site with the closest proximity to the services and transportation resources needed by the users.

COMMENT CARD

Homeless/Navigation Center

Comment

Homelessness has dramatically increased over the last few years due to the increase in the cost of living and rents and the lack of affordable housing options.

The HNC is a proven tool to help get people off the street and into housing in a sustainable way.

I wholeheartedly support HNCs in Fremont.

COMMENT CARD

Homeless/Navigation Center

Comment

We need a place for our homeless neighbors to receive services. There is a ton of misconceptions about these individuals and what the HNC will "cause" in our community but in reality these are people who need help and compassion. We have the money in a grant lets use it! 😊

COMMENT CARD

COMMENT CARD

Homeless/Navigation Center

Comment

Do you have detailed budget
and long-term plan for HNC?
We need more facts and data

residents directly

COMMENT CARD

Homeless/Navigation Center

Comment

Yes HNC!

- A residential location is important for health and human dignity. Industrial locations have too much pollution and noise.
- Individualized services are important because everyone has unique needs.
- Housing-first works and is more humane and dignified than having barriers to entry.
- Don't delay; we need an HNC ASAP.

**What concerns me about having a

COMMENT CARD

Homeless/Navigation Center

I am against having Homeless Center
in Fremont! Reasons:

1) This is not the right solution
SF, Oakland have multiple centers,
but the homeless population increased
not decreased.

2) Crime & police calls will go up —

COMMENT CARD

Homeless/Navigation Center

As I am aware that the HNC is not only for Fremont but accept un-housed friends from Tri-Cities including UC and Newark.

I concern that it will introduce more un-housed friends to Fremont giving Fremont already has 680+ of them.

COMMENT CARD

The total grant funding only equals
\$2,078,880.00. This is insufficient to cover
even a SINGLE year of operational costs
for the HNCC.

COMMENT CARD

Homeless/Navigation Center

Comment

- ① Not proven to have high success rates.
- ② Cost : Benefit → Other ways to spend grant money to more effectively help the homeless, and will be able to help more than 45 HNC residents
- ③ Cost of operation is greater than grant money. How will the HNC continue to operate?

COMMENT CARD

Homeless/Navigation Center

The cost is much higher for HNC than shelter. Why not just expand shelters? That way can help more homeless.

COMMENT CARD

Homeless/Navigation Center

The Location is my most concern. I'm ~~not~~ ^{concerned} concerned of building a HNC in residential areas. (1) potential crimes (2) Environment (3) Children walk & play here every day, there are things that are NOT appropriate for them to see for their age. Such as drug uses, needles, human waste, nudity, etc. (4) Potential harassment due to mental illness and substance usage.

COMMENT CARD

Homeless/Navigation Center

Comment

I have already spoken to the Real Estate Companies. They have confirmed that if we sell our home AND the Center is a Decoto, our home value which we have spent time and money (38 yrs) will go down in value significantly. MOSTLY, How CAN FREMONT AFFORD THE MAN POWER IT WILL TAKE TO KEEP IT FROM becoming what all centers in other CITIES HAVE become, Crime Scenes!

COMMENT CARD

Homeless/Navigation Center

Comment

HNC in a highly populated location is absurd!

- Please keep it away from Downtown.

- There are a lot of investments in DT and we hope to make it the next Santana Row and having HNC here in City Hall will not help that.

HNC should be located where the homeless has access to necessary resources for getting back on their feet. Resources should be within a short distance as they have limited options to getting around town as they are building themselves back up. HNC should be close to potential work so it is easier for them to get to and from work. A possible location maybe an industrial area.

We need HNC to help our homeless people. But, this should be at a place where there is limited interaction with the residents.

I have seen 100 year old men/women work. People become homeless due to their addiction, etc. Help ones with disabilities and not ones who have addictions. Use decato sit which keeps them away from people.

COMMENT CARD

Homeless/Navigation Center

If you trace down to the cause of homelessness, poverty is not the root cause. It's the drug abuse mental illness that is causing the issues. I don't think a HNC will help the homeless people. In 2018, there are 200+ more homeless people in Fremont. This HAK can only accommodate 50 people at a time and the cycle is very long (4-6 months), which means it cannot even solve the incremental number of homelessness. I am strongly opposed to Fremont placing a homeless navigation center, particularly in the Decoto area. Far from being a fear based decision, it is a highly researched decision based on facts. We are trying to make the Decoto area nicer, not turn it into a transient community. For some of us, our homes in Fremont are the biggest investment we have for our future. We are not willing to have that compromised.

Fremont is becoming a huge ^{peaceful} residential
locality. I believe that the ^ homeless should
be included but not the way it's being planned
now at the cost of the existing peace and

And Fremont doesn't have any of that

I am in favor of a navigation center, wherever it may be, although I am unconvinced that it will do much good considering it will serve less than 10% of the homeless in Fremont, and not the people who the mayor's open letter addressed. No HNC in Residential Area ^{which has no residents within a mile.}

I still remember my first experience to talk with homeless. One year ago, when I was on a bus, a homeless woman looked at me angrily and said, 'Why do you want to hang me? Why did you kill my families?' she thought I killed her families and wanted to kill her. And I just stayed away from her immediately after I realized that she had mental problems. I don't know what would happen if I didn't stay away from her immediately. Who can guarantee that a homeless woman with mental problems will do no harm to people. ♡

→ highly encouraged but not at the cost of ~~the~~ residents.

Why are we not considering Pacific Commons site? why divide fremont?

→ Residents have all the right to be worried about their house values & kids. We invest all the time, energy & all the money there. & we work a lot for it.

The concern is on some of the homeless participants they are drug users, ~~and~~ mental-ill patients, and bad elements. Those members will post serious health, safety, and security problems to all members of our residential community. The ~~and~~ ~~issues~~ CRIMES are already bad, given the influx of homeless / bad elements into our residential community is a bad decision.

This is a joke, it never working.
Check the news, S.F. have a
lots of problems with the HNC, people
are hurt by Homeless with mental and
drug problems same in Berkeley. My
son study in Berkeley, he and his
school mate were hit on their head
by those homeless people. My wife was
hit by the homeless on her face in
San Francisco.

No HNC anywhere in Fremont,
Don't say rather than do! Build
one near the officers who support
this program, then we can talk!

① It groups the homeless to a area, if ~~has~~ will have some impact to neighborhood if the area does not have this many homeless people.

It doesn't make sense to build an HHC
at a densely residential area without
much homeless population currently.

Please find a less sensitive site
than Decoto. The drama itself is already
very costly.

Comment

Most of the money from the fund will be used for the staff and will not go to help the homeless people. Building a HNC will only attract more homeless people to Fremont HNC is not an effective way to help the homeless.

The city decide to build HNC in 30 minutes without fremont citizen's opinion. Now the city ask us to choose the HNC site between Deoto site or City Hall parking lot site. It's not fair for all Fremont citizens. NO HNC in Fremont. If the city believe building HNC is good way, please provide Oakland's HNC data to prove HNC is an effective way to help homeless people. Building HNC is big waste and little help. please help homeless in correct way! please!

Comment

- No HNC In Fremont
1. Majority Fremont residents are not ready for HNC now!
 2. Little help, big waste
 3. Fremont city has so many high priority things need to do, definitely HNC not!
 4. Fremont city government should respect ~~most of~~ tax pay people spend fund wisely!

Comment

Most of the money from the fund will be used for the staff and will not go to help the homeless people. Building a HNC will only attract more homeless people to Fremont. HNC is not an effective way to help the homeless people. HNC will not prohibit the homeless from using drugs or alcohol, which will jeopardize the safety of children and women.
