Beyond Neighborhoods: Defining “Communities of Interest”

Under California Elections Code, “community of interest” has a very specific definition in the context of redistricting:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Definitions of “communities of interest” do **not** include relationships with political parties, incumbents, or political candidates.

What Defines YOUR Community?

Ask yourself...

What brings us together?

- Common social or economic interests
- Shared characteristics or experiences
- Similar issues or impacts of city policies

+

Where are we?

- Physical boundaries, such as highways or major roads, waterways, hills, etc.
- Areas around parks, schools, or other landmarks

→ Would my community be best represented within a single district?
