

City Council Hearing – February 8, 2022

The Fremont City Council voted to approve staff's recommendation to return Fremont Boulevard to a 4-lane roadway configuration with new complete streets elements. This followed an extensive community engagement process to collect the residential and business community's project priorities and solicit feedback on the pilot demonstration project. Staff also conducted a comprehensive traffic analysis of the road diet configuration during the pilot demonstration period, which can be found under the heading Pilot Demonstration Project – June 2021 above.
